[global]

Add the vendor id + username and password provided by ClassWallet during setup. The field “Enable Shopping Cart Button” will place a button on the view cart page to allow the user to skip the normal checkout workflow, and go directly to ClassWallet’s checkout page.

Summary

Estimate Shipping and Tax

Subtotal

\$29.99

Shipping (Flat Rate - Fixed)

\$5.00

Order Total

\$34.99

Proceed to Checkout

Proceed to Classwallet Checkout

Check Out with Multiple Addresses

CLASSWALLET

When this option is enabled, and the customer clicks the button “Proceed to Classwallet Checkout,” the workflow skips over the shipping options portion of checkout, therefore, the field “Default Shipping Method” has been provided and will be used for the shipping method for this order. Note: With the button enabled, the customer will still have the option to proceed to checkout as normal, and select their preferred shipping method.

Checkout workflow

Shipping address will be pre-populated with the data from ClassWallet

Shipping Address

Test Butler
6201 Doyle St
Emeryville, Cagliari 94608
Italy
XXX-XXX-XXXX

✓

Checkout will function as normal except payment options will be restricted to ClassWallet only for users coming from ClassWallet.

Admin Orders Backend

The orders will be in a "Pending" status until the order is approved or rejected, the order will move to "Processing" or "Canceled" respectively. Upon completion, the order will be marked with a transition id and ClassWallet order id. They are both the same and will be used for invoicing ClassWallet.
